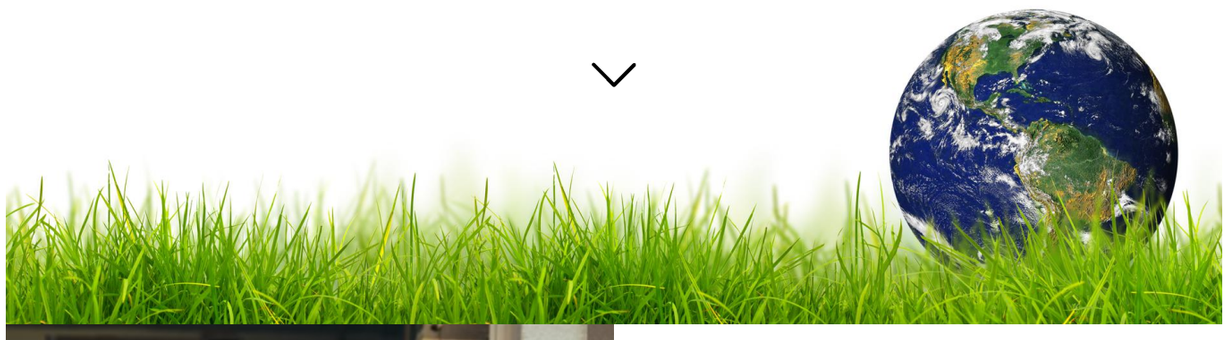
ENVIRONMENTAL INSIGHTS..

ISSUE 45

The CIP Environmental Insight is a bimonthly update of what's happening around the environmental agenda within the built environment. It's free and open to everyone. Some content is only available to subscribers of the CIP Environmental Manual and CIP Knowledge.



Most SMEs increasing sustainability efforts over next 12 months, says SBI

As reported by Edie in June, research from the Small Business Institute (SBI) has estimated that 65% of small and medium-sized enterprises (SMEs) are planning to do more on sustainability across the next year, with 45% having already increased their efforts in the past 12 months.

CIRIA FREE Guide Enabling development. Getting SuDS right from the start

Unlocking the full potential of a development site requires careful consideration of opportunities and constraints from the very beginning, at land acquisition or masterplanning stages. Among the most critical factors is how surface water will be managed, particularly with increasing flood risk, climate change and evolving planning requirements.
